

Weighing and Packing Machine SBD-C

FEATURE:

- Stainless steel structure;
- International brand PLC controller, touch screen showing;
- Equip high intelligent temperature control system;
- Equip date printer, can print date and number automatically;
- Photo sensor for automatic tracking eye marks;
- This machine has been specially designed to produce stand up bag with square base and four sealed sides. It is suitable for packing a range of granular products, and particularly suited to products that require high standards of package: aesthetically perfect, without any wrinkles, the flush seams are highly resistant and all four sides can be printed on.

Model	SBD-C
Film Width	260-520mm
Bag Length	230-350mm
Packing Speed	15-50bpm
7 inch touch screen interface, easy to use and operate;	
Intelligent temperature control;	
Date printer is automatically set;	
Mark sensor for registration film;	
Well know international brand PLC controller.	

<u>OPTIONAL DEVICE</u>	Vacuum Pull Film	Flip Device	Bag Support
	Air Flushing System	Safety Switch	PE Sealing
	Nitrogen Gas	Special Sealing Jaws	Vacuum Packing
	Air Expeller	Tear Notch Device	Destatic
	Hole Punch	Material Stopper	Film Tracking
	4 Lines Folding
