

## *Automatic Powder Filler* *MCXZLC500/MCXZLC2000/MCXZLC5000*

This series of canned function complete feed tank, tank, filling measuring, weighing, etc, with other form a complete set of equipment form a complete set of canned production line, is suitable for filling powder, eye shadow flash powder, pepper, chili powder, milk powder, rice flour, protein powder, soy, chicken powder, coffee powder, powder, additives, essence, etc.

### **Technical features:**

1. All stainless steel structure; Horizontal open type material box, cleaning very convenient.
2. Servo motor and servo drive control screw; The servo control turntable works stably.
3. Control of PLC, touch screen and weighing module.
4. Equipped with the hand wheel with reasonable position to adjust the height of the machine head.
5. Pneumatic tank supporting device to ensure that materials do not spill out of the container when filling.
6. The weight separation device ensures that each product on the assembly line is qualified, eliminating the sorting machine in the back process.
7. Various product parameter adjustment formulas can be stored, which can be used after preparation, and up to 10 formulas can be stored.
8. Replace spiral accessories, which can adapt to various materials such as superfine powder and small particles.

**Technical parameter:**

<b>Model</b>	<b>MCXZLC500</b>	<b>MCXZLC2000</b>	<b>MCXZLC5000</b>
Measuring range(g)	1~500	10~2000	10~5000
Measuring accuracy	±1%~2%	±0.5%~1%	±0.5%~1%
Container size	Φ20~85mm, H15~150mm	Φ30~130mm, H50~260mm	Φ30~155mm, H15~150mm
Power supply	3P AC380V 50/60Hz 1.8kw	3P AC380V 50/60Hz 2.3kw	3P AC380V 50/60Hz 2.8kw
Measurement speed	20~50time/min	20~50time/min	20~50time/min
