

## *HB50-PP Automatic Bagging Machine*

Automatic bagging machine HB50-PP is designed for 25~50kg PP bag packaging. It's realized fully automatic bagging from bag feeding, weighing and filling, bag sealing, conveying bagged products out. The bagging system can also be linked with the robot palletizing system with or without pallets system.

### **Features:**

- Perfect bagging structure designed
- High speed designed for heavy bagging
- High bagged products weighing accuracy
- The large volume of magazine saves time and labor cost
- Good bag sealing performance for PP bag(polypropylene bag)
- The famous brand of electrical parts for bagging system
- Excellent bagging system programmed
- Double vacuum pumps with stable performance for bagging system
- Adjustable conveyor designed for bagged products convey out
- From raw material to bagged products without no human interfere
- The intelligent alarming system guarantees the security of the fully automatic bagging machine
- Hot-melt glue sealing for a long shelf life
- Plast bag sealing avoids air exhausting

## Specifications:

ITEM	INDEX
Packing Range	25~50kg/bag
Weighing Precision	+0.2%
Packing Speed	600~1200bag/hr.. (standard good fluidity)
Voltage/Power	AC380V 50HZ <=7.5kw (Available for custom-made)
Air Consumption	2 m <sup>3</sup> /min.
Preformed Bag Size	L*W=800~1000mm x 450~500mm
Preformed Bag Material	PP Bag (Polypropylene bag)
Dimension (L*W*H)	4700*3400*3900 (mm)
Weight	2400kg

## Options:

- Double-head Weigh-filler
- Infeed-outfeed system
- Printer & Labeler
- Tracing for brand anti-fake system
- Robot/Palletizer
- Winding Machine
