

Shrink Sleeve Beverage Labeling Machine

HYL T200

Product Description

An ideal and economical choice for the packagers to automatically insert the sleeve labels to packaging containers of various materials and shapes at high speed. Patented negative pressure film buffer mechanism and servo controlled cutting mechanism ensure the smooth and stable processes of label transport, label cutting, and label ejection and thus superb system performance.

Specification Features

- Suitable for different shapes of bottles (round, square, oval, rectangular etc.) with a large size range.
- Powered roll unwinder.
- Adjustable roll shaft to fit for different roll core diameter between 5" to 10".
- Minimum film thickness of 0.035mm. PLC controlled with user friendly touch control interface.
- Optional shrink tunnel for efficient and smooth sleeve label shrinking process.
- Easy and fast changeover for different products.
- Stainless steel and aluminum profile construction for GMP compliance, easy to maintenance and services.

Technical Parameters

Item: HYL-T200
Name :Sleeve Beverage Labeling Machine
Speed : 100-600 bqs
Power : 220/380VAC 50HZ ,42-68KW
Size : (L) 2100 x (W) 850 x (H) 2000 mm
