

## *JF-1000A Automatic Liquid Packaging Machine*

All packaging procedures: ultraviolet sterilization, bag molding, print, quantitative filling, sealing cutting, counting one-time auto-complete.

Heat sealing temperature adopts the automatic control, is not affected by power grid voltage.

Packaged product appearance solid, whole stainless steel structure, ensure national health standards.

### **Technical parameters:**

Model	JF- 1000A
Working speed ( bag/hrs)	1500-1800
Packaging volume ( ml)	200-1000
Packaging size ( L×W)	200×180
Packaging type	Back seal
Power	2.3KW220VAC/380VAG
Machine weight ( kg)	320
Machine size ( mm)	950*850*1900
