

Machine For Making Bottle K4

The high-speed automatic bottle blowing machine is a very stable two-step automatic bottle blowing equipment of our company. It can blow from one out of two to one out of six cavities, and it can blow 2L. It is suitable for blowing crystals such as PET and PP. Any shape of carbonated beverage bottles, mineral water bottles, cosmetic bottles, large-caliber bottles, high-temperature resistant bottles and other packaging containers made of type plastics as raw materials are now being introduced to the market by integrating advanced transmission devices and automatic control technology at home and abroad. Product design and manufacturing are constantly updated and improved based on customer feedback. It has the characteristics of good stability, fast production speed, stable operation, long service life and convenient maintenance.

Model**K4**

Bottle type specification	Cavity	4
	Max.volume	2L
	Bottle mouth maximum overall diameter	28-30mm
	Bottle biggest diameter	100mm
	Bottle maximum height	330mm
Capacity specification	Theory output	7000BPH
	Bottle type volume	500ML
	Bottle type weight	17g
	Bottle type	Round
Power specification	Light tube quantity	16pcs
	Light tube power	1.25KW
	Maximum heating power	20KW
	All electric machine installation	29KW
	Actual consumption	30%--60%
Air pressure specification	Work pressure	5-6kg/cm ²
	Blow bottle pressure	25-45kg/cm ²
	Higher -pressure gas consumption	8000Ltr/min
Air pressure specification	Work pressure	5-6 kg/cm ²
	Temperature range	10°C
	Consumption	6000kcal/hr
	Forzen water flow	120L/min
Machine specification	Machine size	3.6x1.6x1.9
	Machine weight	4.3ton
