

KV-100GYS Sauce Ketchup Packet Packaging Machine High Speed

KV-100GYS is suitable for the packaging of various small packets of liquids and sauces, such as ketchup, salad dressing, chili sauce, etc. The packaging speed is 60-100 packets/min, which can not only effectively improve the output and reduce the labor cost, but also form an automatic packaging line with automatic feeding device and bagging/cartoning machine.

Features

- High packaging speed, 60-100 packets/min
- High precision, error within $\pm 0.5g$
- 304 stainless steel frame, low running vibration, can run at high speed for a long time without deformation
- Strong expansibility, can be customized as a full-automatic packaging line

Technical Parameters

Model	KV-100GYS
Packaging Speed	60-100packets/min
Packet Length	$\leq 150mm$
Packaging Range	1-10g
Machine Error	$\pm 0.5g$
