

## *XF-102 linear capping machine*

Grepack takes clients as the god trying best to satisfy all kinds of their requirements to manufacture the linear capping machine.

### **Description:**

Linear screw capping machine is improved from the same type abroad, which adapt to market demand.

It is universal in many bottle specifications.

The machine adopts mechanical electrical integration technology, which applied in pharmaceutical, pesticide, chemical, foodstuff, cosmetic etc.

### **Technical Parameters:**

Model	XF-102
Applied bottle range	50-1000ml
Applied cap size	Diameter: 12-70mm
Cap type	Screw type
Power supply	220V/ 50HZ or custom
Power consumption	<=2KW
Pressure	0.4-0.6 Mpa
Speed control	Frequency conversion
Weight	850Kg
Dimension (L*W*H)	2000×1100×2600 (mm)
Production capacity	5000-7200 bottles/h
