

OC-280G Grain Premade Rotary Packing Machine

Grain Premade Rotary Packing Machine is a mini horizontal pre-made bag pick-up filling and sealing machine. It is an economical high speed bag packing machine that can finish 20pcs-40pcs packing per minute and also has the multi-function of zipper opening, European style punching and easy tear off. The packaging system consists of a mini multi-bag packaging machine, a multihead weigher, a Z-bucket elevator and a working flatbed.

Our Grain Premade Rotary Packing Machine consists of PLC, servo motor and touch screen as the drive control core, which maximizes the control accuracy, speed range, reliability and intelligence of the whole machine. At the same time, the machine is easy to operate and use. The packaging film sealing temperature and action completion time are set independently, which can make the product achieve perfect packaging effect. It can adapt to a wide range of products, and can be applied to thousands of industries.

Application:

Suitable for candy, hard , raisin, peanut, melon seeds, chips, chocolate, biscuit and other big grains or irregular shape products auto weighing packing.

Technical specifications:

Type	OC-280G
Bag Width	70-280mm/ 70-300mm
Bag length	110-300mm/110-400mm
Bag width	60~200mm
Bag Type	Stand-up bag, Zipper bag
Pneumatic Parts	PIAB Vacuum Generator, Pneumatics component Airtac from Taiwan
