

Vertical Form Fill Seal Machine MK-60PZ

The MK-60PZ Vertical form fill seal machine offers bag options 3 side seal or 4 side seal. With the adoption of tablet plate as weighing device, this weighing packing equipment is suitable for automatically packaging uniform wafer and granular items like candy, tablets, and so on.

Packaging materials:

Composite film/ polyethylene, polyester/aluminum foil/ polyethylene, nylon/ polyethylene, tea filter paper, etc.

Features:

- Mitsubishi PLC control system and touch screen operating system allow for clear display of operational statistics and indication;
- High precision servo film feeding system guarantees smooth film conveying and accurate positioning;
- Intelligent digital temperature control system offers stable temperature difference control. A tooth sealing mould is equipped to ensure firm sealing;
- With automatic fault alarm display function, this vertical form fill seal packaging line will shut down immediately and alarm automatically once malfunction occurs.

Additional Options:

- Packaging line feeder;
- Finished package conveyor;
- Weight checker;
- Metal detector;
- Ribbon printer.

Technical Parameters:

- Type: MK-60PZ;
- Packing speed: 20-60bags/min;
- Bag size: L:40-160mm W:30-110mm;
- Measuring range: 1-300pcs (according packaging material);
- Max film width: 220mm;
- Power source: 1200W/ 220V、 380V/ 50-60Hz;
- Weight: 230kg;
- Overall size: 800x700x1600mm.
