

Link-GS50 Peanut Butter Cup Filling And Sealing Machine

The machine is made of stainless steel, suitable for filling, sealing, cutting, automatic temperature control, waste suction, date printing, ultraviolet disinfection of liquid and powder containers of various shapes of plastic cups, aluminum cups, such as filling, sealing, automatic sealing machine, widely used in liquid drinks, solid particles, powder filling and sealing processing.

Technical Parameters:

Product model	Link-GS50
The power supply voltage	AC 220V/50HZ 110V/60HZ
Heat sealing power	3.3KW
The sealing speed	2500-3000 cups/hour
Filling accuracy	±1%
Operating temperature	0-400°C
Sealing material	PE PP PET/PE
Overall dimensions	3300×650×1600(mm)
Net weight	550KG
