

Automatic Liquid Capsule Filling and Sealing Machine NJP-300/600

As a market leader in liquid-fill technology, we have taken extra care to ensure proper filling of liquids.

The NSF capsule sealing machine seals the cap and the body of the capsule at high speed.

We are the world's leading manufacturer of two-piece capsule filling equipment specializing in customized filling solutions. Our high-speed fully-automatic capsule filling machine has attained high reputation domestically and internationally.
