ZS-XG20 Semi-automatic Screw Capping Machine
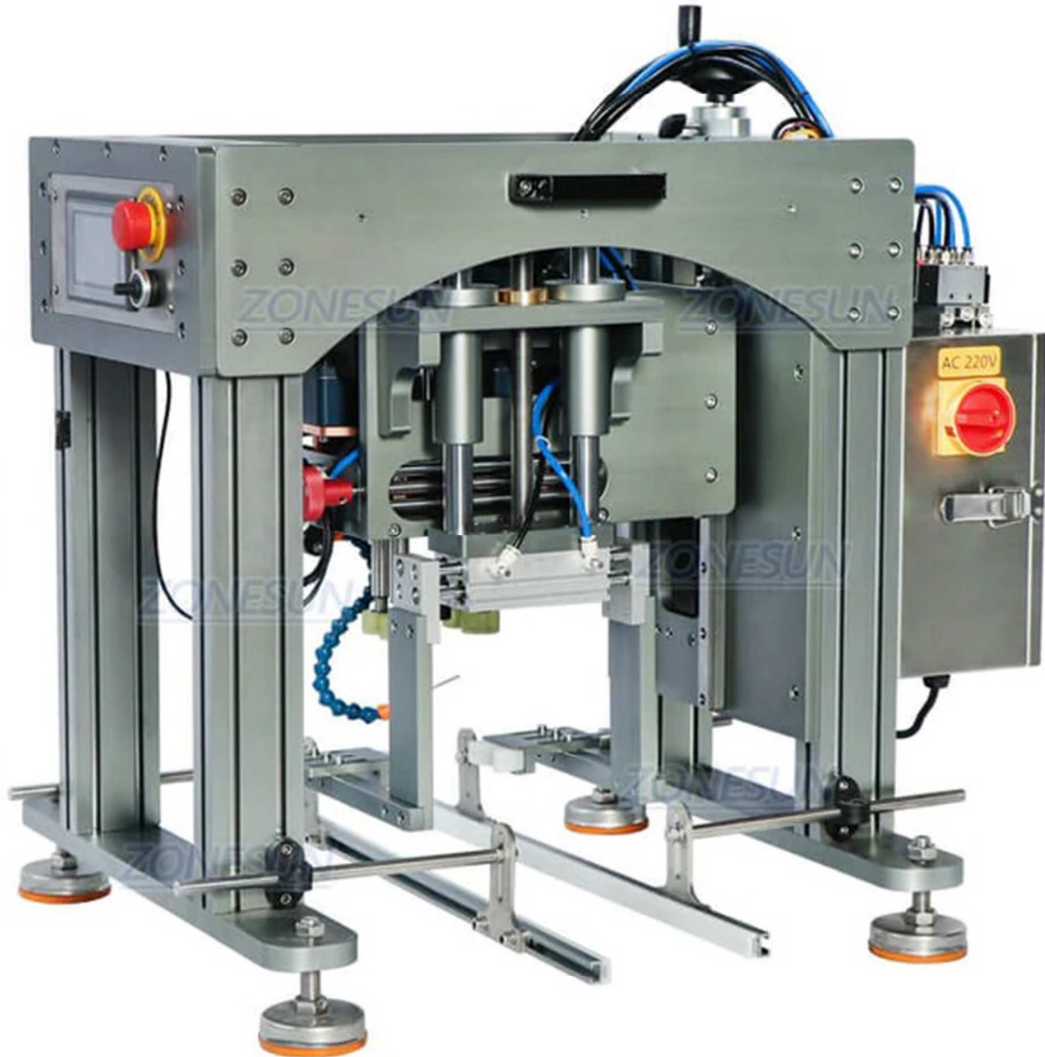

This small desktop bottle-capping machine can be connected with conveyor belt and work with automatic filling/labeling machine to realize automated production. It is made of high quality material and designed into reasonable structure, these makes it can work for a long time and save working space.

Technical Parameters:

- Machine power:110/220V 50-60HZ
- Working speed:10-50times/min
- Air compressor:0.4-0.6MPa
- Bottle cap size: About 20-68mm
- Machine weight: About 78kg
- Machine size:700*350*720(L*W*H)
