

DTJ-300-A Back Sealing Liquid Packaging Machine

The packaging machine is for packing shampoo, sauce, oil, grease, cosmetics and other liquid products and a variety of viscosity products. The features of machine are fast, accurate, economic and practical.

Technical Parameters:

Measurement method	Plunger pump metering
Measuring range	0-350ml
Packing speed	30-60 bags/min
Bag size	W:10-140mm L:30-170mm Can be extended according to customer requirements
Power	1600w
Voltage	330v/220v
Machine weight	250kg
Machine size	1010*730*1780mm
