

DXD-80L Vertical Forming, Filling and Sealing Machine

Suitable for automatically packaging and counting screws which are widely applied to the electric and electronics light, hardware industry.

Features

1. Vibrating feeder, tailored for the screw sample, is arranged in linear vibration and combined with precise counting device to make sure correct sealing and cutting.
2. Controlled by stepping motor with color tracker, the trademark of the package is perfect.
3. Equipped with imported PLC or SCM control system, automatic alarming protective function, the operation is safe and simply.

Automatically show the quantity of package, it is easily to sum up the total amount machine can pack.

Model DXD-80L

- Packing speed: 30-70bags/min
- Bag-making size: (L)20-120mm (W)20-60mm
- Filling range: 1-12 grain
- bag-making shape center sealing/three-side sealing
- Max. film width: 120mm
- Air consumption: 0.2m³/min 0.6MPa
- Packing materials: OPP/CPP PET/PE PET-AL/PE etc.
- Power supply: AC220V 50Hz 1.5kw
- Machine weight: 200kg
