

DXDP 350 Soft Double-Alu Strip Packing Machine

1. Function Introduction

- The machine is applicable for tablets, capsules and irregular shapes of pharmaceuticals for single or multi packing with double-Alu light-obstructing function, which is featured in small size, compact structure , smooth and reliable operation and high production efficiency. Automatic control, steeples speed control.
- Executive mechanisms of sealing, printing, tear-off-lining, cutting, feeding featured in easy adjustment, safe and reliable operation.
- In accord with GMP standard.

2. Main Technical Parameters

Max packing rate	1000 tablets/min(according to the medicine)
Max cutting rate	40 times/min
Max material width	350mm
Max material external diameter	Φ 260mm
Material inner diameter	Φ 70-76mm
Total power	3.5KW
Power	380V, 50Hz
Weight	1000kg
Dimension(LxWxH)mm	1400x1200x1900
