

High Speed Turntable Feeding Packing Line DXD-660Z

DXD-660Z High Speed Turntable Feeding Packing Line is used for high speed feeding and pillow type packing of bars products or products with regular shape and hard surface.

Technical Specification

1. Outside cover of this flow packing machine is food grade stainless steel 304, which make daily cleaning and maintaining easier.
2. Bigger size of round turntable ensures high feeding speed of this flow wrapper.
3. High speed wrapping film auto splice device allows this food packing machine without reduction of speed when changing film.
4. 9 servo motors are installed on this horizontal packing machine, which helps it working stable at high speed.

Technical Parameters

Max.Production Capacity	最大生产能力	500 bag/min (根据物料尺寸不同, 而有所改变)		
Max Width of Film	最大包装膜宽度	300mm		
Max.Dia of Film	最大包装膜卷筒直径	380mm		
Shape of products	包装物形状	长圆柱形Round bars, oblate, hemispherical products		
Packing Range	Length of bag	包装范围	袋长	60-200mm
	Dia		高度	8-30mm
Packing Material	包装材料	可热封复合膜 Hot Sealing Film		
Gross Power	总功率	6kW		
Power Supply	电源	3P/380V/50Hz		
Overall Dimension	外形尺寸	4800×1150×1580mm		
Gross Weight	总重量	1300kg		

Note: We can design and manufacture according to customer's special needs. 注: 用户如有特殊规格, 本公司可另行设计制造.
