

CK-YD-169 Automatic Tea Bags Packaging Machine Inner and Outer Envelope

Automatic Inner and Outer Tea Sachet Packing Machine | Tea Bag Packing Machine using the PID temperature controller, PLC control action of the machine, All parts contacting material of SUS304 stainless steel, Additional device can complete the flat cutting, date printing, easy tear etc. Function line of bags and label the original device. This machine is suitable for Tea/herbal/Coffee etc Small particles of inside and outside the bag of disposable packaging.

Advantages:

- 1, The outer envelope paper by the stepper motor control, bag length stable, accurate positioning;
- 2, Adopt PID regulator temperature controller, temperature control more accurate;
- 3, PLC control machine motion, man-machine interface display, easy to operate;
4. All the contact materials are made of SUS304 stainless steel, a reliable guarantee of health products;
- 5, The part of the work cylinder using imported parts to ensure the accuracy and stability of their work.
- 6, The machine can complete the attachment flat cutting, date printing, easy to tear, and other functions.

Technical Data

Model	CK-YD-169
Measuring Range	1-15 g
Inner Bag Size	Length: 50-75 mm
	Width: 50-75 mm(Can be customized)
Outer Bag Size	Length: 85-120 mm
	Width: 75-95 mm(Can be customized)
Label Size	25*25(Can be customized)
Power	3.7 kw
Size	1050*700*1300 mm
