

## *YHA-2 Bin Blender*

YHA-2 bin blender can automatically lift the bin, clamp, blend and lower the bin. One bin blender equipping with bin of different capacities can meet the different mixing requirements for different products and different batches. It's an ideal machine designed for homogeneous blending of solid in the industry of pharmaceutical, foodstuff, chemical etc.

### **Features**

- Reasonable structure, stable performance
- Simple and safe operation
- Fits Bins of different capacities
- HMI interface and PLC control system.
- Effectively control dust pollution and cross contamination
- Infrared security system

**Technical Parameters:**

Model	YHA-2A	YHA-2B	YHA-2C
Blending bin clamping range (L)	1000-2000	1000-1200	400-800
Max. loading coefficient (%)	0,7		
Max. material loading capacity (kg)	840	500	336
Power (KW)	9	9	7
Power supply	380V 50HZ		
Blending speed (rpm)	3-12		
Weight (kg)	2500	2300	1600
