

GF30 Semi-auto Soft Tube Filler Sealer

GF30 semi-auto soft tube filler and sealer is made of stainless steel. The process is button-controlled. After manual-tube-feeding, 8 tube-position rotates continuously for quantity filling, auto cut-off, heating sealing and tube ejecting. The whole process is pneumatic-controlled. It is easy to adjust filling quantity and speed. The machine is suitable for various size of plastic tube for filling, sealing, and date print. It is featured with performance.

Technical Parameters:

- Voltage: 220V 50Hz/110V 60HZ;
- Filling Capacity: 20-30 (tubes/min);
- Tube diameter: 10-50mm;
- Tube length: 20-260mm;
- Quantity Error: <2%;
- Qualified rate: 98%;
- Weight: 500kg;
- Power: 400w*2 (inner heating sealing);
- Compressed Air: pressure 0.6-0.8 (Mpa);
- Air Consumption: <30 (dm³/min);
- Dimensions: 1230mm*700mm*1400mm.
