

## *Horizontal Sachet Packing Machine HJ Series*

Horizontal Sachet Packing Machine is an automatic machine, which integrates bag making, filling, sealing, and printing. The outside bag materials are heat-sealing, finish packing of there-side sealing and four-side sealing by preparing various kinds of filling machines. It is the ideal machine in the industries from agricultural chemical, pharmaceutical, food, and cosmetics, etc.

HJ Series Horizontal Sachet Packing Machine has many features: fast, adjustable specifications, nice appearance. The parts which contact with the filling materials are made of stainless steel, conforming to the standard of GMP.

**Technical Parameters:**

Model	HJ-110	HJ -130
Sachet Size	50*50mm (Min)	50*80mm (Min)
	110*130mm(Max)	140*225mm(Max)
Filling capacity	60ml	260ml
Packing capacity	40-80ppm	40-80ppm
Power	2KW	3.5KW
Air consumption	0NL/min	100NL/min
Dimensions	2060mm(L)	2850mm(L)
	750mm(W)	970mm(W)
	1400mm(H)	1500mm(H)
Weight	520kg	900kg
Seal	3 side seal,	3 side seal,
	4 side seal	4 side seal

Model	HJ -180	HJ -240
Sachet Size	50*80mm (Min)	100*120mm (Min)
	180*225mm(Max)	240*320mm(Max)
Filling capacity	400ml	1000ml
Packing capacity	40-80ppm	30-70ppm
Power	4.5KW	5.5KW
Air consumption	200NL/min	300NL/min
Dimensions	3500mm(L)	4600mm(L)
	970mm(W)	1120mm(W)
	1500mm(H)	1500mm(H)
Weight	1400kg	2000kg
Seal	3 side seal,	3 side seal,
	4 side seal	4 side seal
