

DK-300S Three Servos Pillow Packing Machine

The Dustial Machinery® Three Servos Pillow Packing Machine adopts double frequency conversion control, the bag length can be set and cut immediately, no need to adjust empty travel, one step is in place, saving time and film. Man-machine interface, convenient and quick parameter setting.

The key parts of Dustial Machinery Machinery's Three Servos Pillow Packing Machines are made of stainless steel, which meets the food QS and medical GMP hygiene standards; double frequency conversion control, automatic memory and storage of 12 sets of packaging parameters, can quickly replace the packaging, convenient and fast, and excellent performance; Sensitivity electric eye automatically tracks, no manual adjustment is required after setting, the size and position of sealing and cutting are accurate, and the sealing is firm and beautiful; independent PID intelligent control of temperature, stable temperature control, better suitable for various packaging materials; color touch screen display, positioning stop, automatic fault diagnosis Function, display at a glance; automatic counting of production, quantitative production, accurate and clear packaging output; simple mechanical design and transmission system, more reliable work, more convenient maintenance; can be equipped with nitrogen or mixed gas, production Date coding system; upper paper feeding mechanism, two feeding methods: push block feeding type and packaging film direct feeding type.

Parameters

Type	DK-300S
Film width	300mm
Bag length	35-1000mm
Bag width	35-140mm
Product height	5-55mm
Film roll diameter	300mm
Packaging speed	10-230 bag/min
Power	220V 50/60Hz 4kw
Packaging materials	OPP, PVC, OPP/CPP, PT/PE, KOP/CPP, ALU-FILM
Machine size	L3910×W820×H1520 mm
Machine weight	420Kg
