

Full-functional ZJR Vacuum Emulsifying Machine

Product description

1. Better emulsification result
 - Lotion is more stable, and the droplet size is less than 5um
2. Suitable for high viscosity materials
 - up to 80 000 mpas in viscosity
3. High precision
4. PID temperature control, rapid heating
5. Safety
 - There is an insulation layer outside the heating inter-layer to prevent operators from getting burned.
6. Convenience
 - The structure is easy to clean and maintain
7. Support customized functions
 - Vacuum/sterile/explosion-proof/voltage

Product Parameter

Model	Design volume(L)	Max. Useful volume (L)	Min. Useful volume(L)	Dimensions (L*W*H/mm)	
				Main tank	Water/oil tank
ZJR-30	30	25	10	1400*600*1900(2400)	1000*510*1350
ZJR-50	50	40	15	1400*600*1950(2500)	1000*550*1400
ZJR-100	100	80	30	1750*650*2150(2850)	1500*700*1400
ZJR-150	150	120	45	1900*780*2380(3000)	1500*780*1700
ZJR-250	250	200	75	2600*1900*2500(3500)	
ZJR-350	350	280	100	3000*2750*2750(3850)	
ZJR-650	650	500	200	3650*3400*3300(4560)	
ZJR-850	850	700	250	3750*3550*3350(4800)	
ZJR-1300	1300	1000	400	4900*3300*3000(4600)	
ZJR-2500	2500	2000	750	4800*4400*3300(4800)
