

LF-PJ-02/LFP-02 High Precision Semi Automatic Dry Fine Powder Bottle Weighing And Filling Machine

High precision semi automatic powder bottle weighing and filling machine is suitable for powder material: wheat flour powder, milk powder, protein powder, flour, tea powder, detergent powder, bakery powder, spices powder, coffee powder, medical powder, etc.

Features:

1. Filling mouth with spinner, leak-proof, suitable for easy-flowing powder.
2. Fully automatic sensor recognition, no bottle, no filling.
3. The whole line of stainless steel body, easy to clean and maintain.

Specification:

Model	LF-PJ-02	LFP-02
Filling Weight	10-5000g(customizable)	10-5000g(customizable)
Bottle diameter	Φ30-Φ140mm(customizable)	Φ30-Φ140mm(customizable)
Bottle height	50mm-200mm(customizable)	50mm-200mm(customizable)
Yield	10-20 bottles/min	20-40 bottles/min
Measurement accuracy	≤500g, ≤±1%; > 500g, ≤±0.5% (Varies due to the characteristics of the material)	≤500g, ≤±1%; > 500g, ≤±0.5% (Varies due to the characteristics of the material)
Power	2.5KW	5KW
Silo capacity	50L	50L
Power Supply	220V, 50Hz	220V, 50Hz
Working Pressure	0.6-0.8MPa	0.6-0.8MPa
Weight	350kg	550kg
