

## **MIC 20P Shrink Packaging Machine**

In today's competitive market, efficient and durable packaging solutions are essential for businesses across industries such as food, beverages, pharmaceuticals, and consumer goods. The MIC 20P Shrink Packaging Machine from MIC Machinery offers a reliable and high-performance solution for businesses looking to enhance their packaging processes. With a speed of 10-15 bpm, this shrink packing machine ensures secure, professional, and visually appealing packaging for various products.

### **Key Features of the MIC 20P Shrink Packaging Machine**

The MIC 20P shrink wrap machine is engineered for precision, durability, and efficiency. Below are its standout features:

1. **High-Quality Shrink Wrapping:** The machine provides a tight and uniform shrink wrap, protecting products from dust, moisture, and external contaminants while ensuring a professional appearance.
2. **Adjustable Heat Settings:** The shrink packaging machine features an advanced temperature control system, allowing operators to adjust heat levels according to different packaging materials and product sizes.
3. **Versatile Application:** Suitable for a wide range of products, including bottled beverages, food items, pharmaceutical products, and consumer goods.
4. **User-Friendly Interface:** The shrink wrap machine is designed for ease of operation, with an intuitive control panel that allows users to quickly adjust settings and monitor the packaging process.
5. **Sturdy and Durable Construction:** Made from high-quality materials, the MIC 20P shrink packing machine is built for long-term, continuous operation with minimal maintenance.
6. **Compact and Space-Saving Design:** The machine's streamlined structure ensures that it fits efficiently into various production setups, making it ideal for small and medium-sized businesses.

7. Energy Efficient: The shrink packaging machine operates with optimized energy consumption, reducing operational costs while maintaining high productivity.

## Advantages of the MIC 20P Shrink Packing Machine

### 1. Enhanced Product Protection

The MIC 20P shrink wrap machine ensures a secure seal, preventing contamination and extending product shelf life. This is particularly beneficial for food, beverages, and pharmaceuticals that require high hygiene standards.

### 2. Cost-Effective Packaging Solution

Using shrink film instead of traditional packaging materials can significantly reduce packaging costs. The shrink packing machine also minimizes material waste, further optimizing expenses.

### 3. Improved Product Presentation

A well-shrunk package enhances the visual appeal of products, making them more attractive to consumers. The MIC 20P shrink wrap machine ensures that each product is tightly and neatly wrapped, improving shelf display.

### 4. Increased Production Efficiency

With a speed of 10-15 bpm, the shrink packaging machine ensures faster packaging, reducing manual labor and increasing overall production efficiency.

### 5. Versatile Packaging Capabilities

Whether packaging single items or bundling multiple products together, the MIC 20P shrink packing machine adapts to various packaging needs, making it a valuable investment for different industries.

### 6. Easy Maintenance and Durability

Built with high-quality components, the shrink wrap machine requires minimal maintenance and delivers reliable performance over long operational hours.

## Parameter

<b>Package type</b>	(1) 350/500/550/600ML big bag : 4×6, 4×5 ; small bag、3×4, 3×5 four type of package.
	(2) 1L/1.5L/2L/2.5L big bag : 3×3, 3×4; small bag、2×2, 2×3 four type f package
<b>Package speed</b>	10—15bag/min
<b>Meet with pre-treatment filling speed of filling machine</b>	(1) 350/500/550/600ML big bag : 4×6, 4×5, (24000—29000b/hr) 、 small bag : 3×5, 3×4, (15000—18000b/hr) .
	(2)1L/1.5L/2L big bag : 3×4, 3×3(10000—14000b/小时) 、 small bag : 2×3, 2×2 (5000—7000b/h) .
<b>Package material</b>	cardbox
