

AWB Manual Water-bath Leakage Tester

AWB Manual Water-bath Leakage Tester is suitable for full inspection or sampling inspection of medium and small batches of aerosol products. The permanent magnet is installed at the bottom of water tank, temperature is automatically controlled, and the machine has safe and reliable performance, is convenient to use, and also can detect non-metallic aerosol cans.

Technical Parameters

Model	AWTB
Production capacity	600-800 cans/hr
Water temperature control range	40-55°C
Temperature control accuracy	±1°C
Air source	0.6Mpa-0.8Mpa
Maximum air consumption	0.6m ³ /min
Can Height	60~350
Can Diameter	Φ16~Φ100
Weight	about 300kg
Dimension(L×W×H)	2000×800×600
