

FM5540 2 in 1 Shrink Packing Machine

FM5540 2 in 1 shrink packager is suitable for packing boxes, toys, electronic bricks and so on. It can pack the products with a layer of plastic film, which makes the packaging more beautiful and firm.

Product features:

- Sealing and shrinking in one station can reduce electricity consumption.
- The machine is easy to handle and only one operator is required.
- The machine is economical for low volume production.
- We can monitor the shrinking operation through the transparent cover.
- Some shrink film is suitable: POV, POF, PP, etc.

Technical parameters:

Model	FM5540
Power supply	220-240V / 50-60Hz
Max. packing dimension (L*W*H)	550*400*300mm
Capacity	500-800 pcs/h
Machine size (L*W*H)	1400*730*1450mm
Machine weight	128kg
