

CE600L External Vacuum Packing Machine

It's suitable for vacuum packaging or packaging of filling insert gas in bag after vacuum. It adopts no case and double gas nozzle design, which is not limited by vacuum chamber. It's suitable for lower vacuum standard but high standard purity of gas filling.

Description

Model:	CE-600L
Power supply:	AC 380V/50Hz
Hot sealing power:	500W
Vacuum pump power:	750W
Sealing-bar size:	L:600mm, 700mm, 800mm, 1000mm
	W:800mm, 10mm
Size from sealing center to floor:	1060mm
Vacuum pump stroke volume:	20m ³ /h
Dimension:	800 x 900 x 1700mm
Weight:	240Kg
