

SED-120LZHP-A High Speed Cartoner Packaging Machine Automatic Cartoning Machine

SED-120LZHP-A Automatic Vertical Cartoning Machine packages bottle type products with speed and accuracy. This machine can complete carton erecting, leaflet folding (1-4 fold), leaflet and product inserting and carton sealing in an automatic process. It is capable of filling and sealing a wide range of carton types. Examples include reverse tuck, straight tuck, and glue-spraying. And it can handle standard carton sizes as well as extended sizes (customized).

This cartoner is widely used in outer packaging across a wide spectrum of industries, including cosmetic, pharmaceutical, food and personal care products.

Advantages

- 1) PLC automatic control system, frequency conversion speed regulation, and electrical components all adopt well-known brands.
- 2) Adopt touch screen operating system.
- 3) Mechanical overload automatic shutdown.
- 4) Automatically reject cartons that lack product and leaflet.
- 5) Fault display, alarm and finished product counting.
- 6) Stable performance and easy operation.

Product Parameters

Model	SED-120LZHP-A
Capacity	30-120 cartons/min
Carton Specification	L(65-120)*W(30-85)*H(15-55)mm
Paper Quality of Carton	250-350g/m ² (depends on carton size)
Paper Quality of Leaflet	60-70g/m ²
Unfolded Leaflet Specification	L(80-250)*W(90-170)mm
Leaflet Folding Type	1-4 fold
Compressed Air Working Pressure	≥0.6MPa
Compressed Air Consumption	120-160L/min
Power Supply	220V 50HZ
Main Motor Power	0.75KW
Weight	1200kg
Overall Dimension (L*W*H)	2700*1140*1800mm
