

CH Series Trough Mixer

As a whole stainless horizontal tank type mixer, CH Series Trough Mixer is widely used for mixing of powdery or paste material in pharmaceutical chemical and foodstuff industries.

S type agitating paddle is rotated, through mechanical driving, which pushes the material turn repeatedly and mix uniformly. Operate with electrical control, it can set mixing time to realize automatic stop and electric discharge upon expiration, thus improving the mix quality of each batch of material and realizing the high homogeneous mixing.
