

CM-ZB-6 I Shrink wrapping machine

Shrink wrap machines apply heat to shrink a plastic film around a product. This process is often done by automated equipment, but manual and semi-automatic shrink wrap machines are also available. Shrink wrap machines cover the item, and then sent it through a heat tunnel or oven for shrinking.

Technical Parameters:

| Model | CM-ZB-6 I |
|---|------------------|
| Power supply | 380V 50Hz 13KW |
| Air pressure | 6kg/cm2 |
| Conveyor speed | 18m/min |
| Working speed | 45/90pcs/min |
| Package Size | Ø100mm(max) |
| Table height | 850mm |
| <i>*notes: Technical data subject to variations without prior notice Output depends on the operator and type of the package</i> | |
