

## Auto Labeling Machine

### Features

- 1 · Labeling Height And Angle Could adjustable Also.
- 2 · Could Connect With Production Line To Maintain High Production Capacity, Also Could Operate Independently.
- 3 · PLC Control System, Easy To Read And Operate.
- 4 · Memory Capacity For Labeling Parameters, Could Fast Change Of Production Conditions.
- 5 · Easy To Maintenance.

### Use

- 1 · Available For Any Product Labeling.

### Specifications( Unit: m/m )

| Model   | Type                    | Power Supply            | Label Length | Label Width | Roll Inter | Roll Outer | Machine Dimension |
|---------|-------------------------|-------------------------|--------------|-------------|------------|------------|-------------------|
| YS-2001 | Top Labeling Machine    | As Customer's Specified | 10-250       | 10-100      | Min. 75    | BelowΦ300  | 1500x800x1400     |
| YS-2003 | Bottom Labeling Machine | As Customer's Specified | 10-250       | 10-100      | Min. 75    | BelowΦ300  | 1500x840x1400     |

• We can also accept your order if your requirement is beyond our standard specification.
