

DZP-250S/400S Automatic Pillow Packing Machine with Drier

Haichina Machinery Co.,Ltd is one of the best DZP-250S/400S Automatic Pillow packing machine with Drier manufacturers and suppliers in China, equipped with productive factory, welcome to buy discount and high-quality automatic flow pack machine, high speed flow wrapping machine, pillow packing machine, automatic flow wrapping machinery, high speed automatic wrapping machine products from us and check the price with us.

DZP-250S/400S Flow pack machine or pillow packing machine is a packaging machine, that wrap many types of commodities including blister sheets, facial paper, soaps, biscuits, candies, chewing gum and instant noodles, and other rectangular, square, round or irregularly shaped products.

DZP-250S/400S Flow pack machine has the function of anti-moisture, dustproof and photonegative, and also enhances the product level and additional value. It can save more than 20% cost than using the manual packaging.

DZP-250S/400S Pillow packing machine can connect with Overwrapping machine, cartoner (cartoning machine) etc., to form a Production Packaging Line.

Main Features of Pillow packing machine:

- 1, Compact and reasonable structure, stable and advanced performance, easy and convenient operation.
- 2, Double frequency inverter control, and steeples variable speed. The length of bag can be set and be cut at any time, no need to be trailed operation on one step, and save time and film.
- 3, Adopt international famous electric components, PLC control, friendly interface, with convenient and rapid setting of parameters.
- 4, The indication of fault is clear, and function is more humanized.
- 5, Highly sensitive lactic-eye color code tracing, which can make the sealing position be more accurate.

- 6, Accurate temperature setting, which is suitable for all various of packing materials and enhances the quality of seal.
- 7, Set the function of positioning power-off, without sticking to the blade and no waste of film.
- 8, Simple and clear transmission system with more reliable work and more convenient maintenance.
- 9, Have blister servo motor feeding system, no need to adjust manually, set the quantity numbers of packing on touch screen. Easy for adjusting, suitable for packing various size of blister.
10. Rejection system is optional by customer. It can blow off like lack blister, more blister. Broken blister.
11. Double film connect system, can be set on PLC "film connect on», «film connect off". it can connect two film during machine running, make running continually. Reduce the work for the operators.

Main Technical Parameters of Pillow Packing Machine

Model	DZP-250S	DZP-400S
Packing capacity	30-150 packs/min	
Packaging size (mm)	L(120-380)*W(30-110)*H(2-60)	L(120-380)*W(65-180)*H(2-80)
Max. width of film	250 mm	400 mm
Power supply	AC220V 50Hz, 2.5KW	AC220V 50Hz, 3KW
Weight	800 kg	900 kg
Overall dimension (L*W*H,mm)	3950*650*1550	4000*800*1550
