

VFL-2 Automatic 2 Heads (Piston) Liquid Filling Machine

Automatic 2 Heads (Piston) Liquid Filling Machine is widely used for daily chemicals, foodstuffs, pharmaceuticals and oil. It can filling various kinds of highly viscous fluid, the filling volumes range from 25ml to5000ml, the max filling speed can reach 25 bottles/min.

Features:

1. With two synchronous filling heads, quick and accurate filling possible.
2. The cylinders and pistons are made of 316L stainless steel and lined with PTFE, conforming to GMP.
3. Adopts Germany FESTO and Taiwan's AirTac pneumatic elements and Taiwan's electrical control parts.
4. Compact design, attractive appearance, convenient installation and filling adjustment.
5. Not without bottle filling, filling quantity accurate and counting function.
6. Adopts closure head preventing leakage and wire-drawing, filling elevating system preventing high froths, bottle top positioning system and liquid level control system.

Technical Parameter:

Filling speed	10-25 Bottle/min.
Filling accuracy	$\leq \pm 1\%$
Power supply	220/110V 50/60Hz
Air pressure	0.5—0.7MPa
Current	3A
Power	300W
Filling volumes range	25-60ml; 50-125ml; 100-250ml; 200-500ml; 400-1000ml; 900-2500ml; 2200-5000ml
