

VLS Front & Back Adhesive Sticker Labeling Machine

VLS Front & Back Adhesive Sticker Labeling Machine is widely suitable for foodstuff, cosmetic, pharmaceutical, pesticide and other lines. It is used in rectangular bottles, square bottles, and elliptical bottles. The max labeling speed can reach 26 meters/min.

Features:

1. It is bottle double side labeling. No barrels no labeling.
2. Automatic controlled by computer (PLC), touch screen control panel, easy operating.
3. It adopts serve motor, achieve close form to control.
4. High efficiency, fast speed, low malfunction rate.
5. It can change specifications easily.

Technique Parameter:

Power supply	AC 220V ; 50Hz (or according to client voltage requirement)
Power	2.5Kw
Labeling Speed range	0—26 meter/min
Suitable label roll inner diameter size	Φ75mm
Suitable label roll outside diameter size	Φ350mm maximum
Standard label high size	0-130mm
Maximum label high size	300mm
Machine Weight	750Kg
Machine Dimension (L×W×H):	3000mm × 1200mm × 1600mm
