

Auto Sleeving Machine / i-sleeve-Pro

MACHINE FEATURES

- 1.Can use Ethernet communication or dry contact I/O control during production.
- 2.Safety guards and color touch panel control system ensure unit is user friendly.
- 3.Specially designed cutter plate does not need changing within rated specifications. If necessary, changes can be accomplished in only three minutes.
- 4.Use PC based control for increased accuracy and speed over conventional controls.
- 5.Servo control adopts Ethernet communication which is less susceptible to interference.

Specification

Max speed	600BPM.
Bottle Diameters	φ25mm~φ125mm.
Film Material	PVC /PET /OPS.
Film Width	PVC: 0.032mm~0.07mm, PET: 0.02mm~0.06mm,OPS: 0.04mm~0.06mm 。
Machine Size	2410mm* 1377mm* 2799mm(L*W*H) 。
Voltage	3P;220V,380V,415V,440V(Choose one from the given selection).
