

## *SGDYJ-2 type mechanical hand style double-head eye drop filling & capping machine*

### **Described In Detail:**

#### Brief introduction:

This machine is the new machine which in these years we design and make it. Man can set the number of steps peristaltic pumps with microcomputer to perform metering filling (special occasions with ceramic pump). It has the functions: automatic filling, automatic plugging and capping. The machine is equipped with special internally unique mechanical hand. These can ensure the plug and the out cover to enter the bottle, so that it achieves fully automatic. The machine fully meets with new GMP requirements.

#### Characteristic:

- 1: be setted by microcomputer, high precision, easy operate.
- 2: filling system has sucked back, no dropping or leakage
- 3: use the mechanical hand to plug and press the cover
- 4: no bottle, no filling, no plugging and no capping

#### Main technical parameters:

- Filling Volume 2-20ml
- Productivity 40-60 80-120
- Filling Precision  $\leq \pm 1\%$
- Power Supply 220V/50Hz
- Capping Rate  $\geq 99\%$
- Stoppering rate  $\geq 99\%$
- Air Supply 2 m<sup>3</sup>/h 0.4-0.8Mpa
- Power 1.0 kw
- Weight 400 kg
- Dimension 2400\*1100\*1500mm
