

## *K300B Automatic Sachet Vertical Back Sealing Packing Machine*

K300B Automatic Sachet Vertical Back Sealing Packing Machine is specially designed for small particle products automatic weighing & bag form fill seal at high speed. Adopting advanced technology, this machine unit is especially suitable for middle size and small size enterprises for saving labor cost and increasing production capacity.

### **Features:**

- Adopt stepping motor control, more precise bag forming, length accuracy 1mm.
- Two side heat sealing with PID temperature controller to have more accurate temperature control, more strong sealing quality, more wide usage of packaging material.
- Micro-computer processor to ensure the setting of the bag length without changing any parts, preset counter, bag length, packing speed indicator are the part of the function.
- To ensure the perfect function, the unit automatically stops or alarms in the situation of the door open, photo mark misaligned, packing material used out, overloaded.
- Pre-set cutter device, can make chain bags with perforation cutting, and cut off every 6 or 12 pcs. according to clients requirement.

### **Specifications:**

Model	K300B
<b>Packing Speed:</b>	30-60BPM
<b>Sealing Style:</b>	Back Seal
<b>Weighing Range:</b>	1 – 100ml
<b>Bag Size Range:</b>	40-150mm (W) x 40-150mm (L)
<b>Power Supply:</b>	Three phase four wire 220V50HZ (injection 4) 3.7KW
<b>Machine Size:</b>	1000×9×2000
<b>Machine Weight:</b>	270KG
<b>Film Material:</b>	Various composite membrane packaging materials

**Options:**

- Infeed & outfeed rotary tables
- Coding machine for data/batch printing
- Infeed conveyor
