

DPP-260E Cantilever Style Flat-plate Blister Machine

Function Features:

It is suitable for different shape packaging of Alu / PVC, Paper/Alu and Alu /Alu for capsule, tablet, candy, honey shape pills, vial, ampoule, disposable syringes and so on in industries of pharmaceutical, foodstuff, health product, medical instruments and etc.

Main Technical Parameter:

Cutting Frequency	10~50 Times/min
Max. Shaping Areas and Depth	320x260x30mm
Standard Plate	80x57mm(Can be designed according to customer requirements)
PVC Rigid Sheet	0.15-0.5x260mm
Dialysis Paper	50~100gx260mm
Mould Cooling	Tap water or circulating water
Overall Dimensions	4600 x1000 x 1900mm(LxWxH)
Production Capacity	18000pcs/h
Max. Trave	320mm
Air Supply	0.4MPa~0.6MPa
PTP Aluminum Foil	0.02-0.035 x260mm
Main Motor Power	2.2Kw
Weight	2500Kg
