

SHL-1530 Automatic Plane Labeling Machine

Features

1. Dedicated to flat labeling of multiple specifications.
2. This machine uses advanced touch-type human-machine interface, reasonable structure and convenient operation.
3. Powered synchronous tension control supply labels, stable and fast supply, ensuring the speed and accuracy of label feeding.
4. The sponge wheel automatically rolls the label to make the label stronger.
5. This machine adopts SUS304 stainless steel and T6 high-strength aluminum alloy and high-quality plastic steel chain. All the profiles have been treated with high-quality surface, never rust, easy to clean, and fully meet the GMP national requirements.

Parameter

Model	SHL-1530
Voltage	AC220v 50/60Hz
Power	0.5KW/h
Output (pieces / minute)	0-150 Pieces / minute (related to product and label size)
Operating direction	Left in right out or right in left out (can be connected to the production line)
Labeling accuracy	±0 .5mm
Label type	Transparent
Labeling object size	L25-150mm,W10-120,H0-150mm
Label size	L25-150mm,H20-90mm
ID of label	76 mm
OD of Label	360 mm(max)
Weight (kg)	300kg
Machine size	1600(L)500 (W) 1550 (H) mm
Remark	Accept non-standard customization
