

Bottle Scrambler and Unscrambler PTT-36

Stainless Steel Bottle Scrambler & Unscrambler, which is familiar as turntable. This is built on MS Square frame, solid guide rail & reduction gear box for jerk less & noiseless performance. Turntable is useful to ensure total synchronization, uniform flow of container and to take a turn at 90 degree to suit different machines and purposes for automatic transfer of container for further operation.

Operation:

Container loaded on turn table manually or automatically will rotate on disc of turn table. During rotation of turntable, the container will be guided by a SS strip towards outlet path. The output of turn cable can be maintained by A.C. Frequency drive.

Technical Specification:

Model	PTT-36
Direction	Clockwise / Anti clock wise as per requirement
RPM of Disc	Maintain by A.C. Frequency drive
Power Consumption**	0.5 HP/ 415 volts / 50 Hz
Height of Disc*	850 mm to 900 mm
