

KY420D Full-Automatic Tablet Press Machine

KY420D Full Automatic Tablet Press This rotary pressure tablet press is an automatic tablet press for pressing granular powder materials into solid tablets. This tablet pre-compression machine is mainly used in the pharmaceutical industry, as well as in the chemical, food, and so on.

Technical Parameter:

Model	KY420-31D
Parameter	
Punch pin number	31
Punch diameter	26mm
Die diameter	34mm
Production range (10,000 tablets/h)	111600
Rotating speed (rpm)	0-30
Maximum pressure	100KN
Maximum filling depth	15mm
Tablet thickness	0.5~6mm
Maximum tablet diameter	Φ20mm
Maximum abnormal axis size	<25mm
Punch length	115mm
Working noise	≤70dB
Total power	5.5KW/380V, 50Hz, three-phase five-wire system
Bounday dimension of equipment	1240*850*1850 mm
Net weight of equipment	1750kg
