

Capping Machine RXG-A

Features

1. The models in drawing on the basis of advanced technology at home and abroad, the modified design. Its characteristics: small size, the transmission mechanism is simple, smooth operation, low noise, high efficiency, beautiful appearance ect.
2. Capper key transmission mechanism uses advanced inverter control technology. Various parts of speed can be precisely controlled, so as to achieve a satisfactory use. Management cover imports the photoelectric excluding anti-cover, and so is the cover rate of 99% or more.

Specifications

Capacity	≤8000 Bottles/hour
Applicable Bottle Diameter	Φ35-96mm
