

Automatic Powder Filling Machine

This Auger Powder Filling Machine is mainly used for weighting powder materials. It adopts screw quantitative and manual feeding. The machine structure is simple, it is very convenient for operation and cleaning. The dust is small in the production process, high in efficiency, very time-saving and labor-saving. It is the most commonly used in powder packing industry. The packaging method with the screw feeding are more precise and convenient.

Technical Specification:

Type	Filling Machine
Application	Beverage, Chemical, Commodity, Food, Medical
Max capacity	15-35 bags /min (subject to actual testing)
Suit Bottle neck	DIA: 20-150 mm, Height : 60-300 mm
Suit for powder	All dry powder or small granule
Driven Type	Electric
Machine Material	304 stainless steel
Filling Accuracy:	± 1%
Machine dimensions	2000 (L)* 900(W)*2000(H) mm
Net weight	380KG
Power	380 / 220V 50 / 60Hz 1.1kw
