

VFO-6M Automatic 6 Heads (Piston) Oil Filling Machine (Motor Control)

VFO-6M Automatic 6 Heads (Piston) Oil Filling Machine (Motor Control) aim to oil realm such as lubrication, edible oil etc, and other realm like agrochemical. It is suited various figure containers. The filling volumes range is 1L-5L, the max filling speed can reach 3000 containers/hour for 1L.

Features:

1. The machine is used high-quality stainless steel frames, international famous brand electrical components conforming to GMP.
2. Compact and perfect feature, liquid cylinder and conduits disassemble and clean.
3. Easily controlled by computer (PLC), touch screen control panel.
4. Compact design, attractive appearance, convenient installation and filling adjustment.
5. Totally close form, filling, high measurement accuracy.

Technique Parameter:

Power Supply	50HZ (or according to client voltage requirement)
Power	1.0KW
Filling volume range	1L—5L
Production Capacity	1L \leq 3000 Containers/hour
	5L \leq 1600 Containers/hour (take water for test)
Error Range	< \pm 5ml
Pneumatic (air-operated) source	0.6Mpa clean and stably compressed air
	> 0.5m ³ /min
Machine Weight	930Kg
Outer Dimension (L×W×H)	2000mm×1000mm×2400mm
