

Liquid Packing Machine BT-60BY

It is specially for packaging fruit jelly, ice, drinking, oil, and yogurt bar or stick. Automatically packaging, measuring, stuffing and cutting.

Characteristic:

1. Highly automatic operation with tubing feeding, sterilization, filling, sealing and packing.
2. All structure is made of stainless steel, corrosion proof, clean and reliable.
3. Sprinkler filling process, precise and uniform.
4. Automatic temperature control, tight seals.
5. Ideal configuration, reliable operation and easy control.

Technical parameters:

- Packaging size: L:50-200mm W:20-60mm
- Packaging method: (Back seal)
- Measure dimension: 3-100ml
- Production abilities: 25-50 pack/min
- External size: (LXWXH)700*860*1750mm
- Total Power: 1.2KW
- Unit weight: 280KG
