

HB50-PPH Automatic Bagging Machine

HB50-PPH automatic bagging machine used for 25~50kg PP bag that contains PE film bag inside or paper bag. Stainless steel structure explored for this automatic bagging machine. Not only smooth sealing but also continuous working makes excellent package bagging. The speed is up to 1200 bags per minute. It's a really good bagging machine for industrial utility.

Features:

- Perfect bagging machine structure designed
- High speed designed for heavy bagging with high bag weighing accuracy
- Adaptive bag filling device suits lots of bag filling
- The large volume of magazine saves time and labor cost greatly
- Good bag sealing performance for PP bag inner with film bag or Paper Bag
- The famous brand of electrical parts with an excellent programmed bag system
- Double vacuum pumps supply strong power for bagging system
- Adjustable conveyor designed for bagged products conveying out
- From raw material weighing to bag sealing without human interfere
- The intelligent alarming system guarantees the bagging operation security
- Plastic bag sealing makes a long product shelf life

Specifications:

ITEM	INDEX
Packing Range	25~50kg/bag
Weighing Precision	+/-0.2%
Packing Speed	600~1200bag/hr.. (standard good fluidity)
Voltage/Power	AC380V 50HZ <=7.5kw (Available for custom-made)
Air Consumption	2 m ³ /min.
Preformed Bag Size	L*W=800~1000mm x 450~500mm
Preformed Bag Material	PP Bag with inner film bag; Paper Bag
Dimension (L*W*H)	4700*3400*3900 (mm)
Weight	2400kg

Options:

- Double-head Weigh-filler
- Infeed-outfeed system
- Printer & Labeler
- Tracing for brand anti-fake system
- Robot/Palletizer
- Winding Machine
