Vertical Tomato Ketchup Sachet Packing Machine CK-LY300

Vertical ketchup sachet packing machine is a new type of automatic packaging machine newly developed by our company. It is suitable for the packaging production of sauce products such as ketchup, sesame sauce, chocolate sauce, honey, etc.

The tomato ketchup packing machine can realize various sealing methods such as back sealing, three-side sealing and four-side sealing, which can meet the requirements of different customers.

Ketchup Sachet Packing Machine Features:

O The ketchup packing machine for sale can use a variety of packaging materials to meet customers' different filling requirements. for example, single-layer PE, PP, composites, and so on.

O The machine body is made of stainless steel, corrosion resistant and meets GMP requirements.
O The photoelectric control system has strong anti-light and electric interference capability, effectively eliminates false color standards and automatically completes the bag length.
O The ketchup sachet packing machine uses heat-sealed four-way intelligent temperature control, more accurate.

Maintenance of ketchup sachet packing machine:

1. Keep the tomato ketchup packaging machine clean, all pipes, especially those that are in indirect or direct contact with materials, must be kept clean. Wash weekly, need to sterilize every time.
2. Brush and sterilize the material tank, ensure that the parts in contact with the material are free of scale and bacteria.
3. Before each work, use 0 ~ 1°C water to reduce the temperature of the ketchup sachet packing machine tank and the conveying pipe, when the packaging temperature exceeds 4°C, the temperature should be lowered first and then the packaging operation is carried out.

Model	CK-LY300
Power & Voltage	1.8KW 220V
Packing range	10-120ml
Film width	50-280mm
Bag size	L:40-150mm W:20-130mm
Machine size	820*980*1680mm
Machine weight	400kg
Film thickness	0.03-0.07mm
