

Simple Structure Grain Crusher Machine XY-F150

Suitable for milling the following agriculture seeds: sesame, walnut, rice, soybeans, peanut, lotus seeds, corn, sorghum, oats, barley, spice, pepper, salt and so on.

Various herbs: dates, almonds, hawthorn fruit, Chinese yam, Radix, gelatin, mastic, dodder seeds, angelica and so on.

Features accessory equipment grain crushing machine:

1. Material is smashed by combined action of gear impacting&friction and material impacting, which are caused by high speed relative motion between movable gear plate and fixed gear plate.
2. Simple structure, strong, stable running, good grinding effect. The crushed material can be directly removed from mainframe grinding chamber. The whole machine material is stainless steel.
3. All inner wall of machine case is processed to make surface smooth so that the production of drugs, foods and chemical can more conform to Nation standard and reach to GMP request

Technical Parameters:

Model	20	30
Capacity(kg/h)	20-50	30-300
Speed of principal axis(rpm)	4500	3800
Size of input granules(mm)	6	10
Crushing Fineness(mesh)	12-120	12-120
Power(kw)	4	7.5
Overall size(L×W×H)(mm)	700×900×1500	800×1100×1700
Weight(kg)	250	350
