

CC300 Automatic Weighing Type Filling Machine

This model focuses on bucket filling, make up the traditional quantitative precision flowmeter filling machine problems, as well as the body cannot be measured against defects compared with mucus.

Mainfeatures:

1. Improve the precision for bucket filling;
2. Convenient: Low loss, labor saving, easy for operation and maintenance.

Technical Parameters:

Production Speed	≤ 65b/h
Filling head	1
Filling Volume	50- 300 L
Dose Accuracy	±0.2%
Air Pressure	0.5-0.8 mpa
Air Consumption	120 L/min
Power Supply	AC 220V.50/60 hz
Power	35 w
Weight	~ 400 kg
Machine Size	1100 x 1000 x 2550 mm
	(LxWxH)
